

## SCHOOL BOARD STARTS THE NEW FISCAL YEAR

J. M. Hill is Re-elected Secretary and R. H. Rush is Chosen Treasurer--First National Bank School Depository

## COMMERCIAL TEACEER ACCEPTS PLACE

At a meeting Monday night of the school board J. M. Hill was elected secretary and R. H. Rush treasurer of the Charleroi school district for the ensuing year. The First National bank was named as the depository for the school funds for the year.

The meeting of the school board was held in accordance with the new school code, which calls for the election of a secretary and treasurer, on the first Monday of July. This has nothing to do with the organization of school boards on the first Monday of December. The election of the secretary and treasurer marks the beginning of the new fiscal year.

Last year the Bank of Charleroi was the depository for the school funds and the previous year to that the Charleroi Savings and Trust company was the depository. When a depository is named a treasurer is elected from the bank which becomes

the depository and each of the three school boards J. M. Hill was elected secretary and R. H. Rush treasurer of the Charleroi school district for the ensuing year. The First National bank was named as the depository for the school funds for the year.

Word was received that Miss Zella Franks, recently elected to the position of teacher in the commercial department of high school has accepted Miss Franks taught last year in Douglas Business college. Another teacher remains to be elected for the commercial department.

The school board took action to the effect that plans be prepared for changes in the heating system to be made in the Fifth street school. Also changes will be made in the Second street school heating plant. The Fifth street plant now in use is not adequate and the ventilation is lamentably poor. This is the reason that necessitates the change being made.

## PHILLIPS CREW PICKED TO WIN FEDERAL FLAG

Indianapolis Team Claimed to be Classiest Organization in New League

For the first time since the opening of the season the future pennant winners of the new Federal league are appearing in Pittsburgh this week, and needless to say, Charleroi people are interested. Of course by the future pennant winners is meant Bill Phillips' Indianapolis sluggers. All over the Fed circuit Phillips and his crew are recognized as the classiest and are the predicted winners everywhere. Still, Indianapolis lost their first games of the week in Pittsburgh to the Phillips boys.

Out in St. Louis they think a lot of Bill and his men and the St. Louis Times-Star speaks thusly: "Watch the Indianapolis polo in the slash for the Federal League pennant. After seeing the Hoosiers cop three straight from Jack O'Conner's brigade, the dope arrives that Indianapolis should have easy sailing in carrying off the laurels of the John Powers organization. Bill Phillips' troupe is in a class by itself. With the present hurling staff and gathering of whirlwind strike welders, 'tis hard to see how the hoosiers can land anywhere but in the leading berth."

"The visitors have a stonewall infield. Kaiser Conway and Tiemeyer form the trio of clover stars."

"There's an athletic scooping 'em up around the first corner who's the Ed Koney of Federal League society. Eddie Dolan is the gent. Said first-sacker has so outgeneraled any main station worker of the new league that it's not worth telling about. Dolan formerly circulated in minor pastures down South and in the West."

Other western papers pick unqualifiedly the Indians to win the pennant. What Bill Phillips and his men have done to the American Association

in Indianapolis is a caution. The Feds in that city are putting up baseball that is the best going and the American Association club is suffering lamentably as a result in the way of attendance and everything else. They are even losing players. Link, one of their best pitchers drifted over to Phillips' crew.

During the last few days the Fed lineup has looked rather queer. Scott the fast shortstop who was with Phillips' Hoosiers when they trained in Charleroi objected to something said to him and quit the club. That happened some weeks back. This necessitated a change in the lineup.

But no weakness was shown because of the departure of Scott. Alcock was simply shifted over to short-field and pitcher Oates, who can play any position but catch was stationed at third. Cates since that time has been playing all kinds of baseball and clouting the spersoid like a Ty Cobb. In the Pittsburgh game Monday Cates played right, Phillips having signed a shortstop in the person of Davin. This left Alcock free to play his regular position at third. Tiemeyer, the big infelder and outfielder, did not play.

It is likely that this week Charleroi fans will witness some of the Pittsburgh games and lend their encouragement to Bill and his pennant hopes.

## MUCH SMOKE AND LITTLE DAMAGE AT HOTEL FIRE

Some excitement was caused at the Arthur Hotel Monday afternoon the report of a fire in one of the rooms. It is understood that some one had been sprinkling the walls of the room with an inflammable liquid. Through accident fire caught and there was a blinding smoke. That led to the sending in of the alarm. Little damage was done by the flames, which were put out by the use of chemical extinguishers without turning on the water.

Charles Hoon expects to leave shortly for the state of California.

Misses Sara and Mary Thompson have left for the state of California, where they will remain for some time.

## RINGGOLDS TO VISIT MONESSEN

Steel Town Will Entertain Veterans in Annual Reunion

## MAKING ARRANGEMENTS IN EFFECT GENERALLY

Civil war veterans of the community are greatly interested in the arrangements which are being made at present for the annual reunion of the Ringgold Battalion to be held at Monessen this year. The citizens of Monessen are already making plans for the entertainment of the veterans. The date for the reunion has not yet been set.

Monessen has never had a soldiers' reunion of any command, and the veterans and citizens of the Monongahela valley are planning to show the aged visitors the best time they have ever had at a similar event. Lieutenant Colonel A. J. Greenfield, of Chicago, Ill., and Captain Harvey Young, of Beallsville, members of this famous battalion, are taking much interest in the affairs of the battalion, and both are likely to attend.

## CASTING REPLICA OF LIBERTY BELL AT MONONGAHELA

A company of colored people of Monongahela will hold special exercises at Monongahela Thursday, at which time a liberty bell will be cast at the Simmons Foundry Belvidere near Fourth street. The metal will be poured at 2 o'clock sharp, when a program will be given. The headquarters of the ceremonies will be at the Second Baptist church. Rev. P. H. Williams and Rev. L. C. Garland are at the head of the affair.

## SPECIAL CARS ARRANGED FOR CHURCH PICNIC

Rev. L. W. Shey, rector of St. Mary's Episcopal church announced this morning that a special car for picnics from the Sunday school of his church will leave Sixth street for Eldora park Wednesday morning, at 9:30. He also expressed an invitation to the friends of the church and Sunday school to attend the annual outing at the park tomorrow.

Emerson. George Emerson, aged 22 years, died at the home of his parents, Mr. and Mrs. Lawrence Emerson at North Charleroi on Sunday at 5:05 o'clock in the afternoon. The funeral was held this afternoon at 1:30 o'clock and the interment was in the Monongahela cemetery. Two sisters and two brothers, with the parents survive.

Mrs. Elizabeth Aussprung and daughter Mrs. Annie Oblinger of Tarentum were visiting over Sunday with their son and brother Joseph Wentzell on First street.

## MAY USE REGULAR STAMPS

New Order Received for the Conduct of Parcel Post

## MAKING ARRANGEMENTS IN EFFECT GENERALLY

Beginning today all denominations of regular postage stamps may be used for the transportation of packages by parcel post. This provision is made in a bulletin issued by the postoffice department, decided upon after numerous demands had been made for such a step. Also no more special parcel post stamps will be issued, and those now unused can be placed on mail matter of all kinds as regular postage for matter on all classes.

In other words a two-cent parcel post stamp of the issue made when the system was placed in operation, can be used to carry a letter and a package costing two cents by parcel post will be accepted with a regular two-cent stamp attached, provided other conditions previously established are complied with.

The new ruling and the abolition of a regular parcel post series is expected not only to save money but to simplify matters in the postal department. In spite of constant distribution of instructions, more or less confusion had resulted from the requirements for special parcel post stamps.

Another new ruling of the postoffice department provides for the insuring of packages up to the value of \$25 for 5 cents, instead of 10 cents as heretofore. Above \$25 the previous rates remain effective. This ruling does not interfere or conflict in any way with the new postal C. E. Z. rule.

## DIRECTOR OF CHOIR PRAISED

Local Man Wins Compliments for Part in International Eisteddfod

Prof. J. T. Daniel, who is the music supervisor in the Charleroi schools is receiving many compliments these days for the able manner in which he conducted the Monongahela Valley United choir in the chief choral contest at the international eisteddfod held at Pittsburgh last week. The chief prize in this big event was \$5,500. A second prize of \$1,000 and a third prize of \$500 were awarded. The choir directed by Prof. Daniel did not win any of the three prizes but it was not his fault. He lacked the talent in singers to compare with the winners. Scranton won first prize, the Haydn choir of Chicago, second and a Cleveland choir third. Of the directors Prof. Daniel was just as good as any of them, a fact that the adjudicators recognized. There were just six choirs that sang in the chief choral contest and all the directors were noted musical men.

Prof. Daniel conducted a male choir in a male chorus competition, and lost out for the same reason that he

## PICNIC MATTER TO BE DECIDED ON THURSDAY

Business Men to Hold Annual Meeting and Hear Report of Committee on Arrangements for Annual Outing

## WILL MAKE SELECTION OF PLACE

When the regular meeting of the Charleroi Business Men's Association is held on Thursday night of this week matters pertaining to the annual picnic of the association will be taken up. The picnic committee consisting of Joseph Stech, Lance Rices and E. W. Hastings will make their report and recommend where a picnic will be held. Three parks have been suggested by the committee. Excursion trains would be necessary for the Kennywood park or the Shady Grove park trip, according to Mr. Stech, the chairman of the committee, and a ticket sale of 300 persons would have to be guaranteed in order to procure special rates. To Kennywood a rate of 85 cents would be had for the 300 a lump sum of \$255. The rate to Shady Grove would be about \$1 each, round trip, or for the 300, the lump sum of \$300. In addition to the Kennywood park train fare there would have to be considered 10 cents street car fare for each. One question that is bothering the committee somewhat is whether or not 300 persons could be induced to

guarantee they would go from Charleroi to either Kennywood or Shady Grove if the guaranteed party did not go or it should be a bad of course then it would be up to the Business Men's Association to make up the deficiency in the party. However, all these matters will be considered by the committee tonight. It makes its final report on Thursday night. It has been suggested by the business men that a better picnic could be had by simply closing the doors for a half day and going to Eldora park and that idea possibly has advantages that appeal to the business man, has met with some success. Some argue that a half day picnic is a better way for the enjoyment of the picnic, as the most of the men and their employees take a two-day vacation anyhow.

In addition to the report of the committee other reports will be made Thursday evening. Special committees on matters of the Business Men's Association taken up. Important action may be taken on a number of things.

## DELWORTH MINE WILL BE STARTED

For the last few days 50 men have been employed at the Dilworth mine at Rices Landing putting it in shape for operations to begin, it is stated within a few weeks. The mine has been closed for several months. Bond holders who purchased the plant from the Dilworth Coal company at a receiver's sale a few months ago are doing the work of getting it in shape, and James Black, Jr., is the superintendent in charge. Since the mine closed the Pennsylvania Railroad has extended a branch line through Rices Landing, so that coal may be shipped by rail as well as by water now from the mine.

## F. W. CUNNINGHAM MOVING TO SOMERSET

F. W. Cunningham, who for four years was stationed in Charleroi as the mine inspector for the twenty-first bituminous district, with his family is moving this week to Somerset, where he has been transferred. Charles P. Byrne of McKeesport, who was transferred to the twenty-first district is moving into the house on Crest avenue vacated by Mr. Cunningham.

Frank Koeller, Jr., and sister Mary have returned home after spending the week at Tarentum.

Mr. and Mrs. Andrew Wood of Eldora desire to thank the choir of the Episcopal church for assisting at the funeral of their baby Sunday.

lost in the chief choral competition, lack of well trained singers. In the ladies' chorus on Thursday a Canton choir, which was formerly directed by Prof. Daniel won first prize.

## CHURCH PICNIC TO BE HELD AT PARK TOMORROW

Tomorrow two events of interest to Monongahela valley people will be held at Eldora Park. One will be the day the annual picnic of Mary's Episcopal Sunday school Charleroi and the Trinity Episcopal Sunday school of Monessen will be held and the other will be the day evening given by the Bachelor club of Charleroi.

The Sunday school outing of the Sunday schools will be similar to previous outings held, only it is expected it will prove larger and better. Previously only the Charleroi had held a picnic alone.

The Bachelor Girl's club promises to be a social event of considerable note. It is usually a mer social affair that is looked forward to with much interest.

Final plans are being laid by the Hebrew Ladies Aid Society of a picnic for their picnic which will be held on Thursday of this week. The outing will be expected to draw people from many towns along Monongahela valley.

Services Wednesday. Funeral services for Andrew Cunningham, aged 65 years who died Sunday will be held Wednesday afternoon at 2 o'clock at the French Presbyterian church conducted by the pastor J. E. Charles. Interment will be in the Charleroi cemetery. Mr. Cunningham was survived by four sons, two of which live in Charleroi.

Suspect Foul Play. Friends of John Kusher of Eldora, whose body was found in Monongahela river near Donora yesterday morning claim that he was victim of foul play. Kusher drawn his pay and purchased a ticket to the old country. When the body was found both ticket and money were missing.

J. K. Tener, Pres. S. A. Walton, Vice Pres. R. H. Rush, Cashier.

### Of Proven Value

It is an advantage to have an account with the First National Bank. Its Safety and Good Service are points well worth considering, when desiring to make new or additional banking connections. Accounts subject to check are cordially invited.

Open Saturday Evenings from 6:00 to 8:00 P.M.

**A GOOD START.**  
While much capital has been made  
the policies advocated by Governor  
Tener which failed of enactment, the  
it should not be lost sight of that  
most of his policies have been en-  
acted into law in some form or other.  
An executive cannot get every-  
thing he advocates, neither can he  
force his policies through in the face  
of entrenched constitutional opposi-  
tion. Governor Tener, however, has  
accomplished a big lot in the matter  
of advanced and progressive legisla-  
tion.  
Governor Tener in his message last  
year recommended "further at-  
tention to the pure food laws of the  
state; a department of labor and in-  
dustry; revision of the election laws;  
submission to the voters of the  
question of woman suffrage; a blue  
ribbon law; a woman's industrial home;  
new western penitentiary; larger  
waters to the state water supply com-  
mission; an inventory of the water  
resources of the state; a nominal tax  
on timber lands; an appropriation of  
\$100,000 for the Gettysburg cen-  
tennial; memorial for Valley Forge; a  
monument to General George G. Meade at  
Washington; a board of censors for  
moving pictures; nonpartisan election  
judges; proper representation for  
the state at the Panama-Pacific expo-  
sition and legislation for third class  
tickets."  
Practically all of these policies have  
been enacted into law. Some of them  
may not be as sweeping and far-  
reaching as desired, but it should be  
remembered that in view of the  
longly entrenched opposition it is a

**Those Who Rely on**  
the great home remedy which has proved its power to  
relieve safely and speedily the minor ailments arising  
from defective or irregular action of the organs of  
digestion, find themselves spared hours of suffering  
and able to ward off the attacks of serious sickness.

**BEECHAM'S PILLS**  
never disappoint those who take them. They help the  
digestion, stimulate the liver, clear the kidneys and regu-  
late the bowels. By purifying the blood they increase  
the richness and create confidence. As actions depend  
on health and strength, those who know Beecham's Pills

great achievement to have accom-  
plished so much in a single session. A good  
start was made in progressive legis-  
lation, which will be more readily  
forthcoming at another session. Gov-  
ernor Tener's administration will  
mark the inauguration of a progres-  
sive policy that will put Pennsylvania  
far in advance of the other states of  
the union.

**LOOK 'EM OVER.**  
Charleroi citizens should not for-  
get that we have a primary election  
next September at which time candi-  
dates will be elected for the borough  
offices to be filled at the Novem-  
ber election. Burgess, tax collector,  
suncilmen and school directors are  
to be elected, all of which are of vi-  
tal importance in the administration  
of public affairs to the people of  
Charleroi.

That being the case it is time for  
all public spirited citizens to look  
over and seek out available candi-  
dates for these offices. The admini-  
stration of borough affairs is not a  
partisan matter and it is to be re-  
gretted that the non-partisan ballot  
law passed by the last legislature did  
not include township, borough and  
county officials, as recommended by  
Governor Tener. It is on the Burgess  
and town council that the moral re-  
sponsibility rests for the conduct of  
public affairs, just as on the school  
board rests the responsibility for the  
efficiency of our schools. Party qual-  
ification does not count in the admini-  
stration of these affairs any more  
than it does in the conduct of the  
business affairs of an industrial cor-  
poration.

There are good and efficient men of  
all party faiths in the borough, and  
so long as our election laws virtual-  
ly compel municipal officials to be  
nominations. When all the parties do  
to the adherents of each party to  
make a special effort to get a full  
roster of good men to stand for the  
nominations. When all the parties do  
this, and every ticket is composed of  
good and efficient men, there is noth-  
ing to fear, no matter how the elec-  
tion goes.

The government of Charleroi will  
be just exactly what the people make  
it. If they choose officials for their  
qualifications to give good and ef-  
ficient public service, that is what we  
will get. If they permit office to be  
parceled out as party perquisites  
and to satisfy personal wants and in-  
terests, the public service will deterio-  
rate accordingly. Now is the time to  
take the matter in hand and look the  
field over for good and available can-  
didates. Of what use are churches and  
civil societies in a community if they  
are not active in promoting the pub-  
lic good. It is simply a matter of se-  
lecting and reaping.

**Scott.**

**PICKED UP IN PASSING**  
There's one girl in this valley who  
can take care of herself, no matter  
how many men may float around. She  
boarded a Charleroi car at the Mon-  
ongahela bridge on the evening of the  
Fourth with a young man at the front  
end, and they sat facing each other.  
Before the car started another young  
fellow got on a few seats behind.

"I have two fellows tonight," she  
said.  
"How's that?" asked the young  
man opposite.  
"The other one just got on the car  
back there."  
"Which will you take?" he asked.  
"Whichever asks me first."  
He reddened a little, recovered and  
sidestepped.  
"I don't quite get you," he asked,  
apparently blaming the noise of car.  
"Whichever asks me first," she an-  
swered, somewhat louder.  
He hesitated, but it was clearly  
his move and he toed the mark.  
"Book me," he said with the accent  
on the "me."

Banks are not the only place where  
the thumb print can be successfully  
used as a means of identification. The  
July Woman's Home Companion says  
that there had been a bold, brazen rob-  
bery in the jam closet. Evidence of  
haste was plain, splashes of jam be-  
ing everywhere. When the owner  
of the jam made the discovery that  
she had been robbed, she spent no  
time or effort in futile speculation.  
She took prompt and practical steps.  
She searched in the spied jam for  
finger prints and found them.  
"Hah!" she chuckled in the best  
Sherlock Holmes manner, "I shall  
have the thief in five minutes."

She went to her bedroom and took  
from a bureau drawer four squares of  
paper. They were labeled respective-  
ly: Willie's thumbprint; Helen's  
thumbprint; Tommy's thumbprint;  
and a fourth—a very little one—  
Baby's thumbprint. Quietly she took  
them to the jam closet and made  
comparisons.  
"It is as I suspected," she said as  
she got down; "it was Tommy."  
That night Tommy got his.

A Philadelphia lad of 15 started  
around the world with \$1 capital.  
That just goes to show that even a  
Philadelphian can possess nerve.

In New York a church had to stop  
services for the reason that its hymns  
and Turkey Trot music from a club  
next door would not mix, and the  
court upheld the club. New York is  
a saintly city too.

The Mississippi Supreme court has  
decided that a razor is not a weapon.  
Perhaps they wish to construe it an  
"organ" of self-defense.

**The Spice of Life.**  
Little chug chug engine,  
Little steering wheel,  
Little horn that hank honk's  
That's the automobile.  
Lots of little blowouts  
When we take the hills,  
Lots of little cuss-words  
When we get the bills.  
These incidents together  
Make motoring worth while,  
To life they add variety  
And help reduce our pile.  
—Motor Life.

The new kind of Fourth of July  
celebration is the joy-riding kind and  
the injuries are there all the same.

The vice president declared that the  
business man should forget congress  
for the next ten years. That would  
be nice—for Congress.

Washington D. C. had a "dry"  
Sunday. Another precedent gone to  
the dogs.

**Will Visit in England.**  
Bureau of the World of the En-  
glish Bulletin-Advertiser, will sail on  
the steamer Mauretania on July 23  
for Liverpool, England, for a short  
visit in his native country. He will  
sail from Liverpool on the 25th of  
August in company with Mrs. Moody,  
who has been in England for about a  
month arriving home shortly after the  
first of September.

**UP THE RIVER**  
An old lady living in East Belle  
Vernon, nearly 70 years of age, was  
taken to the Washington county  
home last week. Her wants  
had been supplied by a kind hearted  
man. She belonged to Washington  
county.

In the reclassification of post offices  
and the annual adjustment of the sal-  
aries of postmasters, the offices at  
Roscoe and Coal Centre have been  
reduced from third to fourth-class of-  
fices.

It is stated that Belle Vernon has  
one storekeeper who has been selling  
cigars, tobies and chewing tobacco for  
eight years, but never sold a cigaret  
or a wrapper for same, or even cigar-  
et tobacco.

The Gibson distillery at Gibsonton  
has closed down for the summer. Dur-  
ing the shut-down extensive repairs  
and changes will be made.

A copperhead snake was killed at  
Nauvoo Hollow near Fayette City  
one day last week by Frank E.  
Scroggins, who was passing the home of  
Arthur Howes. Some little girls saw  
the snake thrust its head crawling  
across the porch and screamed for  
help. Mr. Scroggins attacked the rep-  
tile with a hatchet, and it showed  
fight. Even after the head and four  
inches were severed it tried to sink  
its fangs into its assailant. The snake  
was over two feet long.

The board of stewards of the Fay-  
ette City Methodist church have  
granted the pastor, Rev. Cilcote, a  
vacation of three weeks. The vacation  
is to be taken in August.

It is stated that all efforts are be-  
ing put forth by the Pennsylvania  
Railroad to close up the right-of-way  
between Roscoe and California so  
that work on the street car line may  
progress and the road be improved. It  
is said that the state highway depart-  
ment will co-operate and the street  
car line will be paved with brick  
27 feet wide, part of which is to be  
borne by the Street Railway company.

The East Bethlehem township  
supervisors last week began the job  
of oiling the township roads, and for  
the purpose had purchased a carload  
of the fluid. This year about 65 bar-  
rels will be used for the work and as  
each barrel contains about 42 gallons  
there will be in the neighborhood of  
3,000 gallons distributed over the  
highways of the townships. The oil  
will cost the township 8 cents per gal-  
lon.

The Morton Ferry company has re-  
cently purchased a new flat from the  
Speers-Belle Vernon Ferry and have  
placed the same in operation between  
Millsboro and East Millsboro. The  
new flat is much larger than the one  
heretofore used and is giving excel-  
lent satisfaction.

The Steamer Clyde, of the Clyde  
Coal company, passed down the river  
with a tow of coal for the Rosebud  
Coal company, which is operating a  
mine in the fifteenth pool. A few  
years ago the fifth pool was consider-  
ed a long distance from Pittsburg,  
but the demands of business compel  
operators to go almost to the head-  
waters of the Monongahela river for  
a supply of fuel.

## SOCIETY AND PERSONAL

Calvin Higgins and Peter Cordero  
rode bicycles to Greensburg Sunday  
and spent the day there.

Lance Riggs and V. E. Reeves went  
to Pittsburg today on a business  
trip.

J. B. Brannagan, former post-  
master at Charleroi, now engaged in  
the glass business at Los Angeles,  
Cal., is pending a few days in Char-  
leroi and other eastern points.

Mrs. E. G. Stanley is spending the  
day in Pittsburg.

Mrs. Benjamin Harris is visiting  
relatives and friends in Verona.

Born—To Mr. and Mrs. Frank J.  
Kurpjuweit, July 6, a son.

**Wise Precaution.**  
Shopper—I want to buy a necktie  
suitable for my husband. Salesman—  
Sorry, madam, but we are not per-  
mitted to sell neckties to women who  
are unaccompanied by men.—Pack.

**Changed by Marriage.**  
"Father did mother accent von the  
first time you proposed to her?" "Yes,  
my dear, but since then any proposal  
that I have ever made she has scorn-  
fully rejected."

**Ambiguous.**  
Maud—What kind of a man did Car-  
oline marry? Beatrice—The kind who  
can come home from Europe with  
money in his pocket.

**The King of Pianos**  
**STEINWAY**  
THE presence of a Steinway grand or upright in  
your home indicates that your judgment about  
pianos coincides with that of practically all the  
world's greatest musicians from Liszt to Paderewski. The  
Steinway creates an atmosphere of grandeur and exclu-  
siveness that can be produced by no other single object.  
No other piano looks so well, no other sounds so well, no  
other wears so well. High standard maintained by four  
successive generations of the Steinway family.  
Price \$550 upwards; liberal allowance for used pianos taken  
in part payment; easy terms for the balance. SEND YOUR  
NAME AND ADDRESS ON A CARD AT ONCE, SO WE CAN  
MAIL YOU COMPLETE CATALOGUE AND LITERATURE  
CONCERNING THE WONDERFUL STEINWAY PIANO.

**Little Doubt About It.**  
Married a month, a young man told  
the magistrate that his wife had done  
the following things: Torn up the  
marriage-certificate, pawned the ring,  
torn up her wedding-dress, assaulted  
him. She followed him to court, he  
admitted, but he managed to dodge her.  
The Clerk: "You took her for better  
or worse, and you seem to have got  
the worse."  
**Specialists Recommend Yawning.**  
In the opinion of learned specialists  
no one can be healthy unless he or  
she does a certain amount of yawning.  
When von yawn von excel from the  
lungs a vaw of superfluous air; the  
breathing muscles of both the chest  
and the throat are strengthened by  
yawning.  
**Cave Dwellers Abroad.**  
Southern Tunis boasts of a house-  
less town having a population of 6,000  
people. They are troglodytes, whose  
fathers before them lived in similar  
caves.

## TRAINED IN HOUSEHOLD WORK

German Institution Teaches Girls Domestic Service, and Finds Great Demand for Graduates.

Berlin has an institution, founded about two years ago by a woman, the object of which is to train well-educated girls for domestic service. The students are generally daughters of professional men, and the curriculum comprises cookery, housework, the care of children, and needlework. When application is made for the services of a "sister," the matron, or some other woman connected with the school, calls upon the applicant, forms an opinion of the "situation," and arranges terms. Each "sister" must be allowed a free afternoon every week, one Sunday every other week from four o'clock, and a fortnight's holiday in the year. Six weeks' notice is required on each part. The salaries paid range from \$7.50 to \$12.50 a month, with, of course, board and lodging. Sisters wear a brown uniform, are treated as social equals, are not required to take meals with other servants, and are addressed as "Sister Marie," "Sister Hedwig," etc. The demand for their services is so great that the head of the Sister school declares that she could place 500 girls a year, instead of 50, and similar institutions are about to be established in other German towns.

## MAKE WAREHOUSE OF CHURCH

Sacred Edifice at Brighton, England, Has Been Unfortunate Since Its Erection.

To serve as a cold storage warehouse for meat and eggs—such is the fate of the beautiful Church of the Resurrection at Brighton, England. Built at the expense of the late Rev. H. D. Wagner for the accommodation, it is said, of the poorer members of the congregation, and for those who preferred a ritual simpler than that of St. Paul's church on West street, this building first attracted the public attention as the subject of a curious lawsuit. Mr. Wagner planned to build a remarkably tall church, and the owners of the adjoining property, by means of a lawsuit, prevented him from so doing. Accordingly he caused deep excavations to be made, and thus secured the desired internal height. The Church of the Resurrection proved to be a great expense and was closed in 1908, being, in the opinion of the present vicar of St. Paul's, no longer necessary for the purpose for which it was built. In 1909, after prolonged opposition on the part of Rev. E. F. B. Weber, one of the trustees, it was sold. Since then it has stood empty and in disrepair, until the grotesque tragedy of its present usage occurred.—The Churchman.

## Tons of Iron Lost in Rust

One large railroad system suffers a loss of more than eighteen tons of metal daily, due solely to the effect of rust. Thus far the only known preventive is to keep the metal surface always covered with a suitable paint. Some idea of the costliness of this remedy, however, may be gained from the fact that it requires about \$10,000 annually to paint one large railway bridge alone. A typical case of this kind is the Brooklyn bridge, upon which a corps of painters are constantly employed, as the weather makes repainting of one end of this large structure necessary before the workers have reached the other. Although experiments have demonstrated that pure iron surrounded by oxygen does not rust, and that some acid, especially carbonic acid, is necessary for the production of rust, the secret of manufacturing rustless steel and iron remains to be discovered.

## Lasting Joke

How long will a good joke last? Who can tell? You have heard that one about the good sleighing in Canada, and how by putting on a pair of pajamas and sitting on a cake of ice before an open window and ringing a bell one can get the same effect, and much cheaper. Billy Emerson, the minstrel, originated that one over thirty-five years ago, and it is one that has never run down. DeWolf Hopper began to use it in his curtain speeches eleven years ago, and ever since, eight times a week forty weeks a season, he has used it and it has never failed to get a laugh. Always there are some in the audience who never heard it. Hopper figures that with the addition of a few score times at private functions he has "sprung" the chestnut 3,753 times. It is his one best bet, he says, and expects to use it as long as he is in public life.

## \$20 Gold Pieces a Quarter Each

When five boys commenced to sell \$10 and \$20 gold pieces on the streets of North Scranton for 25 cents each, with the supply apparently unlimited, curiosity was at once aroused as to the source of supply, and the boys were taken into custody and given the "third degree." When searched the youths' pockets produced over \$500 in gold coin and when questioned they admitted that they had found a "pot of gold."

The money was buried in a box in the cellar of a house formerly occupied by Peter J. Scanlon, who during his lifetime had the reputation of being a miser. There were \$620 in shiny gold pieces in the box. The boys, none of whom was over eight years of age, thought they were brass medals and sold about twenty of them before being arrested.—Scranton (Pa.) Dispatch.

Disappeared in Philadelphia Edward.

## QUEER FACTS ABOUT MONEY

Average Lifetime of Various Denominations of Paper Currency Differs Considerably.

The average lifetime of the different denominations of United States paper currency differs considerably; that of the \$1 silver certificate, for instance, being a trifle over one year; the \$5 silver certificate, 1.9 years; the \$10 gold certificate 1.68 years; \$20 gold certificate, 1.9 years, etc. The number of pieces of United States paper currency in circulation is gradually increasing and numbered \$27,329,159 on June 30, 1912. There were \$73,426,336 pieces of United States currency redeemed during the same period, which exceeded by 6,218,415 the number of pieces issued the preceding year. The increasing growth in redemptions is due primarily to the growth in business activities, the publicity given to uncleanness and alleged insanitation of soiled notes, and the consequent demand for cleaner money; the growing practice of payment of wages in factories, shops, etc., weekly and bi-weekly, as compared with monthly; and growing popularity of paper money in sections where silver was formerly in the greatest demand, etc.—Leslie's Weekly.

## UNIQUE EXAMPLE OF LOYALTY

Popular Daughter of Prominent Chinese Official Is Married to Large Red Vase.

Not long ago considerable commotion was caused in the Chinese city of Hankow when the attractive and popular daughter of a prominent Chinese official was married with great pomp and ceremony to a large red vase which was supposed to represent a deceased bridegroom who had died a few years before his marriage. Whereupon his grief-stricken bride-elect declared that she would never marry any one else, but would devote herself as a widow for the rest of her life to the family of her husband. In order to do this, however, it was necessary that she should legally belong to that family and so the strange ceremony with the vase was gone through with to enable her to become a member of the family. Since then it has been suggested that an arch should be built in the city in order to commemorate the devotion of the young girl to the husband she never had.

## China Market for Hats

Men who have wondered what becomes of the large stocks of hats, caps and clothing that remain unsold at the close of each season in this country will be interested to learn that a considerable portion of such stock is disposed of in China, where the men are adopting the dress of their western brothers. The rising generation of Chinese is particularly keen for headgear worn in America, but the styles seen there are always those that were in vogue in this country the year before.

Much of the men's apparel that falls to find a market in this country finds its way to the far east. In a walk through the streets of any Chinese city one sees derbies, fedoras and caps that bear an American label. Most of the caps are of British make because many of the tourists come from London, and in selecting a cap the native has no guide except the headgear he sees on foreigners.

## Coal and the X-Ray

It is now believed that the mystery of the formation and constitution of coal, which has long puzzled students, will be solved by means of the X-ray.

According to a French scientific journal, there are two or three kinds of ash in coals: First, the foreign matter carried by the wind or the rain into the forests that gave rise to the coal. Next there is the mineral matter that forms part of living plants. Finally, there is generally more or less mineral matter due to the formation of new compounds by the decomposition of the first two kinds of ash. The examination of coal with the X-rays will probably lead to a possible distinction between these three forms of ash, and will thus contribute to throw light on the formation of veins.

## Bottle-Fed Fruit

Bottle feeding is the latest wrinkle in the growing of the enormous winter hothouse fruit, and it has increased the fruit's size and sweetness 80 or 90 per cent. Peaches and pears are like pumpkins; grapes and strawberries like apples.

When a peach or a pear is young and green and hard, the gardener passes through it a needle and thread of coarse cotton, leaving both thread ends sticking out. He does this till eight or ten ends are obtained. These ends he puts into bottles of sugar and water syrup, and the syrup, flowing along the cotton, is absorbed by the fruit, sucked up by it—sucked up as babes suck up milk—the fruit, in a word, is bottle-fed.

## Arguing It Out

"The horse is superior to the automobile at every point."  
"Nonsense. You can't name a point."  
"Well, for one thing, you can eat horse meat. Thousands do."

## Secret No Longer

Marryat—So that great inventor is dead and his wonderful secret is lost—Newitt—Not at all. He told it to his wife just before he died.  
Marryat—Yes, that's what I mean—Gray Stories.

## Thanks to the Cartoonist

Party emblems that figure on ballots represent the more serious purposes and type the traditions of various political followings; but the emblems that the cartoonists and humorists have established are the more popular, because they represent that cheerful mood in which a majority of persons attack politics without abandoning the earnest aim that underlies its manifestations.—Judge.

## Silence and Death

"Even in the face of the inexorable law of death," says the Lancet, "science still has a consoling message. It can hold out the hope that one day the ravages of disease may so far be eliminated that death will be nothing more than a quiet and painless phenomenon. It will cease to be feared, and come even to be desired as a fitting close to a weary day."

## Watch Built in a Pearl

A tiny watch, which has been made inside a pearl as large as a big pea, has just been constructed by Gallopini & Co. of Geneva, fifteen months being spent on the work. The empty pearl weighed forty-five grains and in diameter is less than an inch. This pearl watch can be worn on a ring or as a pendant and cost \$5,000.

## Still at It

"I wonder what has become of my husband. Three days ago I sent him to match a sample at a department store. He hasn't been seen since." "I saw him yesterday. He was at the third counter of the fourteenth aisle, and was just starting for the fourteenth counter of the third aisle."—Washington Herald.

## Caution

"Shall I empty your wastebasket?" asked the janitor. "It is brimful of correspondence." "No," answered the man who is combining politics with high finance. "Just hand me my bonds and stock certificates and I'll stuff 'em in some pigeonhole so that you can lock the waste-basket in the safe."

## "Costermonger"

Ribbed costard apples, a cooking kind, are now to be seen in the shops. The costard is referred to in the household accounts of Edward I., in whose reign the street seller of the apple was called a costardmonger—hence "costermonger" and "coster."—London Standard.

## Apology

Conjuror—"Now, sir, you admit that the card you have just taken out of the handkerchief is the queen of clubs, yet the card you chose and securely tied there—namely, the ace of spades—I now produce from this hat." "Timid Volunteer—"So sorry—my mistake."—Punch.

## Home Happiness

Probably nineteen-twentieths of the happiness you will ever have, you will get at home. The independence that comes to a man when his work is over, and the feeling that he has run out of the storm into the quiet harbor of home, where he can rest in peace and with his family, is something real.

## Poetry at the Bottom of the Mug

"He will work," said a Tottenham (Eng.) constable of a defendant, "if he knows there is a pint of beer at the end of the job." This must have been very much the sort of thing Tennyson had in mind when he wrote "Follow the Glean."

## To Sterilize Cistern Water

Cistern water can be thoroughly sterilized by the addition of one-tenth of a grain of hypochloride of lime to the gallon. This does not injure the water for laundry and bathing purposes.

## Precious Attributes

"Why are diamonds so highly valued?" "I suppose," replied Mr. Groucher, "it's because they are made of carbon, which is the equivalent of coal, and at the same time look like ice."

## Dog Earned His License

The little fox terrier of L. N. Hanley won for his master a license tag for the killing of 100 rats. The prize was offered, when the canine had killed 80 in two weeks, by a member of the council.—Carlisle Advocate.

## Pity

A girl who has a steady beau feels the same kind of pity for the girl who sits alone night after night that the boy who can dive has for the one who is afraid to wade in "above his knees."

## As a Precaution

Get a dozen tiny bells, and every time a bottle of poison is brought into the house tie a bell to the neck. Even in the dark the bell will tinkle its warning.

## One More Item

Not that we cannot think of other ways of frittering away money, but some day we hope to be rich enough to afford a "going away coat" for our dog.—Houston Post.

## Cheap Dish

Hunter's stew can be composed of any ingredients which can be obtained seasonably.—London Globe.

## WAYS OF FRENCH BEGGARS

Select Their Favorite Prison, Then Commit an Offense to Injure Winter Accommodations.

Beggars and professional vagabonds who have passed thirty years do not fall each year when the winds of October blow to select their winter quarters.

It is then that each of them commits some offense, well knowing that he will get a penalty of six months' imprisonment. The delinquent so times his offense that he will not be at liberty until the month of April, in the first warm breezes of spring. He chooses his winter quarters wisely, for he knows the good and bad prisons.

Fresnes, because of its valued and luxurious accommodations, occupies the first rank among prisons. This year the temperature was such as to bring about some true knavery on the part of these beggars and vagabonds. From the month of August they were forced to commit some offense in order to assure themselves a shelter.

So la Sante, the antechamber of Fresnes, was gorged with prisoners for whom the tardy rays of the September sun proved a cruel irony. If the magistrates show clemency and condemn these delinquents to only six months of prison (the measure of these poor devils will be complete, for they will, without pity, be thrown into the street in the open month of January)—le Or de Paris.

## ARE HANDSOMEST IN WORLD

Royal Irish Constabulary Bear Off the Palm From All Police of the Earth.

According to those most entitled to speak on the comparative pulchritude of the police, the Royal Irish Constabulary bear off the palm from all policemen in all other parts of the world. Dean Hole is quoted in the London Chronicle as contributing the following tribute to the fascinations of the noble Irish force:

"Our London police are well favored in appearance, but if the Royal Irish Constabulary were to take their place for a week there wouldn't be a single female servant to be warranted heart whole in the metropolis."

London goes to the rural districts for its policemen largely, and the result is often as amusing, not to say exasperating, as that which arises in New York from the employment of foreign car conductors, sublimely ignorant of city streets and neighborhoods. The Chronicle writer tells of an encounter with an inexperienced policeman who was asked the whereabouts of a famous firm in the neighborhood, to which query the new loby replied gaily:

"Bless ye, I know no more than yourself, sir. I only came up from Dorset yesterday."

## Tea Drinking a Vice?

A foreign critic says: "In hunting a cause for this apparent decadence of the once mighty people (the British), some scientists have had much to say on the subject of tea drinking, for nowhere else is the habit so universal as in the British Isles. Women and children drink tea off and on during the day. Business men have to stop their work at intervals to partake of their tea. And in most instances the brew is exceptionally strong. It has been estimated that each person in Great Britain, on an average, takes a daily dose of 3.6 grains of alkaloid and 9.7 grains of tannin consumed in tea. This means that the average tea drinker takes half as much alkaloid and nearly as much tannin as the Maximum allowed by the British pharmacopoeia for an occasional dose. And, of course, many thousands of people drink a great deal more than the average dose."

## Speed of a Bullet

Experiments with improved instruments for measuring the velocity of projectiles have shown that the speed goes on increasing after the missile has left the mouth of the cannon. Leaving the muzzle with a velocity of 1,474 feet a second, a projectile has been observed to increase its speed to 1,689 feet a second within the first six feet. It is only after having traveled 25 yards that the projectile's velocity becomes reduced to the speed it has on leaving the muzzle. This is ascribed to the impulse of the expanding gas being felt for some distance beyond the cannon's mouth.

## Cheek

"Cheek" in the sense of impudence is an old term. The earliest quotation in Sir James Murray's dictionary is from Captain Marryat (1840). But it has lately been found in the sixteenth century records of Galway, in the west of Ireland. The municipal rulers of that fighting city—the "man from Galway" has become proverbial for pluck and readiness to defend the hottest of corners—decreed that any person giving "cheek" to the mayor should "forfeit 100 shillings and have his body put into prison."

## Varying Melting Points

The melting points of various heat-resisting materials have been thus determined by the United States Bureau of standards: Fireclay brick, 2,331 to 3,137 degrees Fahrenheit; bauxite brick, 2,841 to 3,245 degrees; chromite brick, 3,772 degrees; magnesite brick, 3,929 degrees; bauxite, 3,308 degrees; chromite, 3,966 degrees; pure alumina, 3,450 degrees; pure silica, 3,132 degrees; silicon carbide, beginning to decompose at 4,000 degrees, but does not melt below 4,000 degrees.

## Big Sculpture

The most remarkable proposition made about Mount Athos was the architect Dinocrates. He was to cut it into the shape of a statue of Alexander the Great, holding in the right hand a left a tank that was to rest the waters of the region. All was much taken with the scheme. It was eventually rejected ground that the neighboring was not fertile enough to feed the inhabitants of the projected city. Other of Dinocrates' plans was to build to the wife of King Ptolemy, with a roof of loadstone would keep an iron statue of him in the air.

## Repetition

Is essential to making an impression. The boy learns the multiplication table by saying it over and over until he can't remember it. It is no truer after repeating it a thousand times. It does not alter the facts. But repetition does make the knowledge correct.

## Repeat

Your advertising to make effective. Say it over and over in different ways if you like. Keep telling the essential facts of your name to remember your name to remember your name to think of you when they think of your line of goods.

# FOR THE PORCH

The place where you spend so many hours should be fitted out for comfort and pleasure. A Vudor porch shade, a Hammock, a Grass Matting Rug or Runner will add the proper homelike touch to your porch and make it the coolest, most used part of the house.

**Vudor  
PORCH SHADES**

Vudor Porch Shades make the porch cool, airy, private—they add an extra room—a cool rest room by day—a sleeping room at night. Vudors are made to wear. They are made on the right principles.

Vudor Hammocks are made with re-inforced seats, the supporting ropes are put on under tension, each one carrying its share. They cost but little more than the inferior kind and last twice as long.

Grass Matting solves the floor covering problem for the porch. No need to worry about the rain. A grass rug or runner on your porch means more comfort and less scrubbing.

Come in and See Our Porch Supplies  
**J. W. BERRYMAN & SON**

### Light, Heat, Power Three Millions at Your Disposal

The West Penn Electric Company, in order to supply light, heat and power, day and night, continuously, to its consumers has invested three millions of dollars in its Connellsville Power Station. This investment was made to serve every person in this community, whether the need be for one light or one thousand, one horse power of ten thousand. This source of electric energy will soon be supplemented by a mammoth Hydro-Electric Station, one of the largest in the East, with a capacity which far exceeds the estimated power requirements of this community for years to come.

#### A Rate of Reliable Service

Duplicate machinery and protective devices insure a minimum of interruptions to our service. Fifty Thousand Dollars was spent during the past year for protection against lighting alone. Every precaution known to science has been taken to protect you against inconvenience by reason of the failure of our service.

As a result, West Penn Service is reliable and can be depended upon. It is always here, ready to light your home, or store, or turn the wheels of your factory, the moment the switch is thrown in.

That tells the whole story of West Penn Supremacy in the Western Pennsylvania field.

#### Rates lower than others can quote

West Penn Rates compare favorably with those quoted by the Niagara Falls plants, where power is cheaply generated from the tremendous force of the greatest of water falls.

Our rates are and always have been reasonable. They are the lowest that can be given consistent with good, reliable service. That is why mines and mills in this territory are discarding individual power stations and using West Penn Service.

Our rates are lowest whether your need is small or great. West Penn Service is at the command of the smallest home or the greatest corporation. We invite inquiries as to the cost of our service for any purpose.

**The West Penn Electric Co.**

#### NORTH CHARLEROI

Miss Marie Anderson of Elizabeth is visiting Mrs. Charles Taylor. Clayton Claybaugh of Ohio is visiting his sister, Mrs. Charles Booth. Mrs. Oliver Greene of Speers is visiting Mrs. P. E. Kramer.

Misses Beale Harden and Grace Phillips were in Brownsville.

Mrs. William Holmes and daughter Miss Edna spent Sunday in Belle Vernon.

Samuel Cheshire who is employed at Rices Landing spent Friday and Saturday with relatives here.

Mr. and Mrs. William Foulks and baby returned home Sunday with Mr. and Mrs. Charles Phillips.

Mrs. Fred Newell and son Glen are spending a few days at Cecil.

Mrs. Hiram Foulks left Friday to visit her parents Mr. and Mrs. John Gimbert in Adrian, Michigan.

Mr. and Mrs. Charles Taylor and daughters Mabel and Hazel were called at Elizabeth Friday.

Mr. and Mrs. Leslie Campbell and children returned home from Monongahela.

Born—To Mr. and Mrs. William Rosebrook a twin boy and girl Sunday, July 5.

Mrs. William Dunham is visiting relatives at Girdstone.

Mrs. Harry Maple and children returned home Sunday from Greensburg.

Roy Nicholas spent the Fourth in Greensburg.

### COMING TO Monessen THE German American Doctors

Offices 477 Donner Ave.  
Open Thursday July 24 9 a. m.

Physicians and Surgeons Eminent in their Profession and Known as Among the Most Successful of Living Specialists locating Permanently.

Their first 100 patients after their opening will be treated free (medicines and electricity excepted) until cured in order to quickly prove the success of their special combined Electro-Medical System. Remember date of opening and their location so you may be among the first 100 callers.

Those who suffer from some derangement of the nervous system, some functional disorder or some special chronic disease need some restorative force either in conjunction with or apart from medicinal treatments, to build up the system and restore health. It is idle to expect benefits from any set methods of treatment such as have been employed from time immemorial and too often found a failure. Each case requires individual attention.

#### Electricity

The re-vitalizing force, is a marvelous recuperative agency in nervous debility, weakened vitality and chronic diseases and in special diseases and readily adapts itself to the conditions at hand. If your health has been weakened or destroyed through overwork, nervous worry or the progress of some insidious disease, investigate at once the medical benefits obtained in the ELECTRO-MEDICAL treatment. By electricity combined with proper medical treatment. Do not court danger by delay or continue to doctor without benefit when the ELECTRO-MEDICAL treatment may prove your early salvation. We have had so many patients who had almost given up hope and since then have wondered why they did not come before. ELECTRO-MEDICAL treatments are invariably beneficial often prolonging life in incurable cases, and wonderful results have been wrought in cases thought incurable. There is no economy in hesitation. Visit us. Remember date of opening and office location and be among the first 100. No cases can be treated by correspondence. Let us examine you free. Lady office attendant for ladies. Men if you can't call during the day call nights before 9 o'clock. Hours 9 a. m. to 9 p. m. Offices 477 Donner avenue, Monessen, Pa.

A MERCILESS JUDGE.

One Who Shows No Favor.

A merciless judge is Father Time. Before him the weak and the wanting go to the wall. Only the truth can stand. For years the following statement from a Charleroi resident has withstood this sternest of all tests.

Mrs. Charles Bromwich, 714 Washington avenue, Charleroi, Pa., says: "About two years ago I had a severe attack of kidney disease and suffered a great deal from pains in the small of my back. I also had headaches and a feeling of languor and although I tried a number of remedies, I was not helped. Doan's Kidney Pills were finally recommended to me and deciding to try them, I got a box at Piper Bros' Drug Store. In a few days after using this remedy, I felt a great deal better and before long was completely cured. I recommend Doan's Kidney Pills as highly today as when I gave a public statement for them two years ago. The cure has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SUFFERED  
AWFUL PAINS

For Sixteen Years. Restored  
To Health by Lydia E. Pinkham's Vegetable  
Compound.

Moretown, Vermont.—"I was troubled with pains and irregularities for sixteen years, and was thin, weak and nervous. When I would lie down it would seem as if I was going right down out of sight into some dark hole, and the window curtains had faces that would peek out at me, and when I was out of doors it would seem as if something was going to happen. My blood was poor, my circulation was so bad I would be like a dead person at times. I had female weakness badly, my abdomen was sore and I had awful pains."

"I took Lydia E. Pinkham's Vegetable Compound and used the Sensitive Wash and they certainly did wonders for me. My troubles disappeared and I am able to work hard every day."—Mrs. W. F. Sawyer, River View Farm, Moretown, Vermont.

Another Case.

Gifford, Iowa.—"I was troubled with female weakness, also with displacement. I had very severe and steady headache, also pain in back and was very thin and tired all the time. I commenced taking Lydia E. Pinkham's Vegetable Compound and I am cured of these troubles. I cannot praise your medicine too highly."—Mrs. Ida Malt, Gifford, Iowa.
